AN INNOVATION BY KLASY

Every Student Writes. Every Teacher Evaluates. But Is Every Student Truly Understood?

Behind every test are
hundreds of answers.
Behind every answer is
a student with unique
strengths, struggles
and potential.

The challenge is not evaluation,
it's understanding every learner.

Marks are easy to record.
Understanding every learner
is the real challenge.

The Hidden Cost of Manual Evaluation

Institutes pour thousands of hours into evaluation, yet face challenges that impact accuracy, turnaround time and learning outcomes.

TIME CONSUMING

Hours of manual checking every week.

OUTSOURCED EVALUATION

Reliance on freelancers, homemakers & ex-students.

LIMITED SUBJECT EXPERTISE

Quality varies across evaluators.

GENERIC REMARKS

Mistakes highlighted, improvement rarely guided.

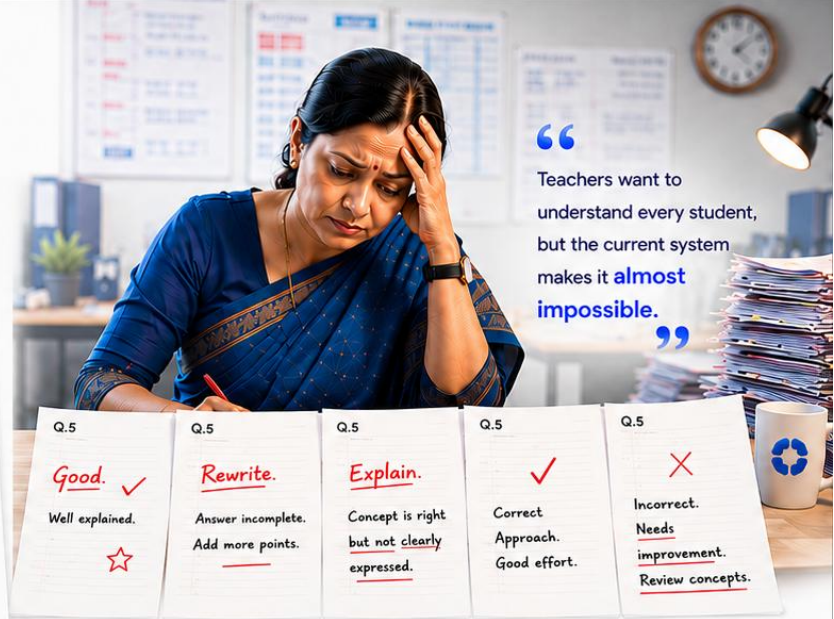

CONSTANT SEARCH

New exam.
New paper checker.

Checked.
Marked.
Submitted.

But...
Did every student receive the same evaluation?

“

Teachers want to understand every student, but the current system makes it **almost impossible.**
